PROFESSIONAL SUMMARY

Detail-oriented Web & Multimedia Designer with 10+ years of experience creating accessible, user-friendly digital experiences across websites, CMS platforms, and multimedia content. Skilled at translating complex information into clear, visually compelling layouts that support usability, health literacy, and organizational goals. Strong background in UX, responsive design, accessibility, SEO, and front-end implementation. Known for managing projects from concept through launch, collaborating across teams, and delivering polished, high-quality work on deadline.

WORK EXPERIENCE

Digital Designer

Concordia Publishing House | St. Louis, MO | January 2023 – Present

- Designed and maintained high-performing landing pages and product pages using HubSpot, Magento, and custom HTML/CSS, ensuring responsive, accessible layouts across devices.
- Developed scalable UX systems and reusable templates, including an optimized blog layout and dynamic product page components.
- Led weekly sprint cycles to improve site usability, structure, and content clarity across a multi-product ecosystem.
- Produced multimedia assets for web, mobile, email, and social, maintaining brand consistency across teams and platforms.
- Troubleshoot and refined front-end code to resolve layout issues, dark-mode rendering problems, and accessibility gaps, improving readability and click-through rates.
- Supported cross-functional teams by translating content strategy and messaging into clear, user-centered digital experiences.

Web Designer

Cobalt Communications | Fenton, MO | March 2021 - Dec 2022

- Designed and developed responsive landing pages and user flows using semantic HTML, CSS, Bootstrap, and UX best practices.
- Built and maintained client WordPress environments, creating custom templates that enabled non-technical teams to publish accessible, SEO-optimized content.

- Produced digital ad assets and email templates for multi-channel campaigns, improving engagement and conversion performance.
- Collaborated with writers, strategists, and developers to align creative direction with technical execution, managing timelines through Asana.
- Implemented on-page SEO, metadata structure, and analytics tracking to support content performance and reporting.

Webmaster

Lawson Screen and Digital Products | St. Louis, MO | July 2016 - March 2021

- Improved UX architecture and site navigation across core digital properties, increasing lead generation and product visibility.
- Conducted ongoing site audits and performance reviews using Google Search Console to monitor health, indexing, and search visibility.
- Executed keyword strategy, content updates, and technical SEO improvements to strengthen organic search performance.
- Managed routine site updates, content publishing, and quality assurance across desktop and mobile.

Graphic Designer

Gillans Graphics | Crestwood, MO | Sep 2015 - July 2016

- Adhered to production schedules to meet tight deadlines
- Achieved deadlines with a high volume workload
- Developed print graphics using Photoshop & CorelDraw

Content Management Specialist

Shortcut Solutions | Creve Coeur, MO | Feb 2015 - Sep 2015

- Optimized web content using SEO best practices to improve traffic and search visibility.
- Supported sales and marketing teams with digital content updates and customer-focused communication
- Identified and implemented web solutions to improve site clarity and user experience.

Freelance Web Designer | 2010-2015

- Formed various artwork with Illustrator, Photoshop and InDesign
- Worked with clients to gather and define requirements, establish scopes and manage project milestones
- Build web presence and branding for businesses and individuals
